1. In reply to the Ministerial directive (reference a), the Military Committee submitted its report at reference c on countries' proposals for qualitative improvements considered to be politically and economically feasible within the 1969-70 period. This report also indicated that there were certain minor inaccuracies in the detailed listing of measures by some countries in SACEUR's report.

2. SACEUR has now forwarded his amendments (reference d) to the earlier listing of measures in reference b as a result of further information from the countries concerned. These amendments have now been included in the attached draft MCM so that Enclosure 1 to reference a can be corrected.
