NATO SECRET

IMS Control N° *esb1*

Subject is Seven Slice Infrastructure.

Reference (A) AC/4-R/141;  
(B) AC/4-R/142 - to be dispatched.

1. For your information, informal meetings have just been held on the above subject between Controller for infrastructure (IS) and representatives of SACEUR, SACLANT, and SGLO. IS suggested to SACEUR and SACLANT representatives that, based on previous experience, considerable time and discussion might be required in the infrastructure committee in processing SG/MRC recommendations, unless immediate action was taken by SACEUR and SACLANT representatives to resolve various technical and financial questions raised in IS reports and infrastructure screening meetings; SGLO agrees with this view.

2. SACEUR and SACLANT representatives agreed that immediate action should be taken. IS pledged the immediate and full support and cooperation of staff to assist SACEUR and SACLANT representatives in this undertaking.

3. SGLO feels that knowledge of actions contemplated in Para 2 above may be of value to Standing Group in its processing of Seven Slice programs. SGLO also feels SACEUR and SACLANT representatives who justify programs before infrastructure committee in its final screening should be thoroughly briefed and familiar with all aspects of the programs.

4. To facilitate processing programs though infrastructure committee early solution by the military is required in certain matters having military aspects raised in IS reports and Ref (A) and (B), including:
