MEMORANDUM FOR THE SECURITY COORDINATING COMMITTEE AND
THE INTELLIGENCE COMMITTEE

SUBJECT: Code Word Procedure

1. Following is a letter ID 3196 dated 13 March 1952, from the Secretary, SHAPE:

"a. Present procedures prescribed by the Standing Group and by Allied Command Europe for the use of code words prevent a code word being filed with its meaning or transmitted in the same pouch.

"b. These procedures have been difficult to implement in Allied Command Europe in connection with operational plans.

"c. In view of the foregoing it is requested that consideration be given to revising the procedures to permit assigned code words being placed on the inside covers of the plans (or the annexes of plans) to which they refer."

2. This is transmitted to the Security Coordinating Committee in collaboration with Intelligence Committee for consideration of the advisability of revising code word procedure.
