MEMORANDUM FOR THE ITALIAN MILITARY REPRESENTATIVE

SUBJECT: ACP 165

Reference: Italian MilRep ltr N.01522/SRP of 12 Oct 54

1. The above reference requests a clarification of the term "magnetic bearing" as used in the definitions of SALVOS and SALVOS PROXIMITY contained in ACP 165.

2. When used in conjunction with either term the "magnetic bearing" is the approximate magnetic bearing of the target, either surface or airborne, from the firing units position at the time of transmission of the message.

3. Clearer definitions of the terms SALVOS and SALVOS PROXIMITY will be considered for inclusion in the next major revision of ACP 165.
