14 March 1956

MEMORANDUM FOR THE MILITARY AGENCY FOR STANDARDIZATION

SUBJECT: Standardization of Submarine Underwater Telephone Frequencies

Reference: SGM-436-55

The Communications-Electronics Coordination Section has considered further the responsibility for the allocation of underwater frequencies used for communication purposes. The responsibility for the allocation of electro magnetically propagated waves lies with the Communications-Electronics Coordination Section. However, this responsibility does not extend to mechanically propagated underwater waves. Although these underwater waves are used for communication purposes their primary function is submarine detection and do not fall within the responsibility of the Communications-Electronics Coordination Section.

FOR THE STANDING GROUP:

C. H. SAMPSON
Commander, USN
Deputy Secretary
