MEMORANDUM FOR THE SUPREME ALLIED COMMANDER EUROPE

SUBJECT: Security Examination of Cosmic Registry at SHAPE

1. The Standing Group Security Committee carried out an examination of the Cosmic Registry at SHAPE on April 23 and 24, 1956 and with the exception noted in paragraph 2, verified that the security procedures and practices were in accordance with the requirements of CM(55)15 (Final).

2. It was noted that certain divisions on the staff exchange COSMIC documents without notifying the registry which then loses control over the document in question. The result is that many man-hours are lost in tracking down the document when the time comes to account for it.

3. It is recommended that:-

- a. The COSMIC Registry be notified, on the form provided, of the transfer of COSMIC documents between divisions, or
- b. Such transfers be made through the COSMIC Registry.
