AC/27-D/3

WORKING PARTY ON
AMMUNITION PRODUCTION AND OFF-SHORE PROCUREMENT

DRAFT REPORT BY INTERNATIONAL STAFF

Memorandum by Assistant Secretary General for
Production & Logistics

A draft factual study on NAT European ammunition capacity was prepared by the Secretariat and issued on 2nd September to Delegations, for comment at the earliest possible date, under reference AC/27-D/2.

2. Very few comments have so far been received and it is now desired to issue the study in its final form. It will therefore be assumed that Delegations who have not submitted comments by 15th October are able to accept the paper as it stands. Attention is particularly directed to the estimates made in the paper of explosives and propellants availabilities, which appear to limit drastically, in the majority of countries, the production capacity notified to the Secretariat.
