NATO INTERNATIONAL INFORMATION MEETING12th - 14th April, 1951Resolution on Initiative in the Counter-
Propaganda Field

The Conference of national information officials at its meeting in London on 12th - 14th April, 1951, considering that the Soviet propaganda machine has for too long had the offensive in carrying on aggressive campaigns, on a world-wide basis, by distorting facts and even the meaning of words:

Agrees on the desirability of adopting effective measures designed to turn the present defensive position of NAT countries in the counter-propaganda field into active initiatives likely to make a strong impression on public opinion.

13, Belgrave Square,
London, S.W.1.
