Following the interruption of the silence procedure by Canada, the Political Committee at Senior Level considered C-M(82)49 at its meeting on 28th May 1982, and agreed to amend paragraph 2 as follows:

"Whether or not there is any such Eastern response, Western negotiators should, as soon as it appears practicable to them, but in any case not later than the end of the next round, draw on ....."

2. Unless objections are received from Delegations prior to close of business on Friday, 4th June 1982, it will be considered that the Council approved the guidance, as amended, and it will be transmitted to the Ad Hoc Group for use in the negotiations.
