Subject is working group on control, operation and maintenance of NATO POL pipeline system. References (A) STASEC 2348 (B) LOSTAN 1006 (C) AC/76-D/8 and (D) AC/76-R/3.

1. Instructions contained in ref (A) have been complied with. References (C) and (D) dispatched respectively on 26 November and 27 November via APO by air.

2. It will be noted that (D) does not (repeat not) include the discussion on "principles of control" which was entirely informal, as pointed out in ref (B), para 1.

3. According to ref (D), para 3) (4), the question of "overall control of the pipeline system" will be taken up formally at meeting to be held on 9 December 1954. In this connection, the feeling of SGLO is that the views informally expressed at 18 ~~November~~ meeting by some delegates (ref (B) refers) will be reiterated. Any comments on these views which Standing Group might wish to make in addition to basic guidance contained in SG/137/34 would be appreciated.
