REPORT BY THE SECURITY COORDINATING COMMITTEE

to the

STANDING GROUP

on

PROPOSED ITINERARY FOR SECURITY EXAMINATIONS

DURING THE CALENDAR YEAR 1952

Reference: S.G. 41/3 (FINAL)

1. The Security Coordinating Committee, during the calendar years 1950 and 1951, completed security examinations in all NATO member countries (except Iceland) and made preliminary security surveys in Greece and Turkey, all in accordance with their terms of reference.

NO LONGER EFFECTIVE

2. It appears to be logical that security examinations be next conducted in the Command organizations, to be followed by further examinations of the COSMIC security systems established by Greece and Turkey, after affording those countries a reasonable time, as members of NATO, to establish and implement their COSMIC registries and communications facilities. Thereafter, when the issue of the NATO European Security Committee has been settled, examinations of the Civil Agencies of NATO, created under the reorganization program, may be undertaken.

3. Since the Supreme Allied Command Atlantic and its subordinate commands will not be fully implemented for the next several months, examinations thereof should accordingly be deferred until the SACLANT command organization is completed.
