MEMORANDUM FOR THE COMMUNICATIONS-ELECTRONICS COORDINATION SECTION

SUBJECT: Communications for the SG Liaison Office in Paris

1. At their 69th Meeting the Steering Committee had under consideration the establishment of the strengthened Standing Group Liaison Staff to the new NATO Headquarters in Paris. It was agreed that it would be necessary to establish adequate communications between the Liaison Officer in Paris and the Standing Group in Washington. There appeared to be three communication centers which might be used:

- a. SHAPE's;
- b. The Ministry of Defense, Paris; or
- c. The new communications center, if set up, for the NATO Headquarters.

2. It was agreed that it would be unacceptable to use the NATO Headquarters communications. Therefore, the problem resolved itself into deciding whether MOD Paris or SHAPE would be better able to provide communications.

3. In light of the above, the Communications-Electronics Coordination Section are invited to consider this problem and recommend to the Standing Group which they consider to be the best method of establishing communications between the Standing Group in Washington and the Standing Group Liaison Office in Paris, and what action should be taken to establish these communications.
