MEMORANDUM FOR THE MILITARY REPRESENTATIVES

SUBJECT: Methodology for Assessing Road Capacity
for Re-Supply of Enemy Forces

References: a. SGM-552-53, 10 April 1953
b. SG 258 (Final Decision), 24 February 1959

1. By reference a you were forwarded a report made by the NATO Ad Hoc Logistical Intelligence Committee held in London in March 1953 which contained route capacity data.

2. Experience has shown that the methodology in reference a is not altogether satisfactory and is liable to wide differences of interpretation.

3. The Standing Group has therefore examined this problem and its report, reference b, has been forwarded separately.

4. In order to standardize, within NATO, the assessment of road capacity for re-supply of enemy forces you are invited to adopt, as appropriate, the methodology contained in the Enclosure to reference b.
