Since WRC approved in the name of the Military Committee the Council Deputies recommended change to MC 36, it was considered by the Standing Group that a Joint Council Deputies/Military Committee meeting on the subject should be unnecessary; and, since a report on the matter would anyway be made by the Council Deputies to the Council, it was considered that such a report prepared by Council Deputies, possibly as a paragraph in your progress report, could be considered as the joint CD/WC report required by C8-D/18.
