EXPERT WORKING GROUPS ON NATO PRODUCTION

On 5th September I circulated a note on the above subject outlining the Secretary General's proposal that document C-M(52)67 might best be handled through a meeting of representatives of all delegations with the Assistant Secretary General for Production and Logistics.

2. The Assistant Secretary General for Production and Logistics has now returned from his recent trip abroad and is anxious to proceed with this task. He and members of his staff, however, are deeply committed in the Annual Review and we assume that the same is likely to be true in the case of delegation experts.

3. It is therefore suggested that the further consideration of C-M(52)67 might well be held over until the pressure of work is reduced. I should be grateful if any delegation which opposes this suggestion could let me have its views.
